Online – 7 (B1/B2) Divide and Conquer

Duration: 40 minutes

You are given a **sorted (non-decreasing) array** of integers, which may contain duplicate elements. Your task is to find the number of **unique elements** in the array using a **divide and conquer** approach.

Input	Output
1 2 2 2 3 5	4
4 5 6 7 8	5
